

Guide Fees 2015

It is very difficult to give you a wholly accurate idea of the cost of your surgery until I have met you and fully assessed your needs and goals. The table below should give a reasonable idea of the range of prices for the most common operations and covers the spectrum of most of the bigger operations, such as Abdominoplasty and Facelift.

Your initial consultation is free of charge and will be focussed on establishing exactly which procedure should suit you and at the end of it you will be given an exact quote which will cover all treatment, appointments and re-admissions or revisions, should that be necessary.

James Murphy

Procedure	Nights Stay	Total cost without planning fee {£150}	Total cost with planning fee {£150}
ABDOMEN :-
